

News from Mallard School

September 2024

A Month in Review

June was a hectic month! We completed the final assessments, turned in the last assignments, and completed swimming lessons. We participated in a soccer tournament, and went on a field trip or two!

On June 24th we celebrated Lyndon's Graduation with a small ceremony at the school. Congratulations Lyndon!

Looking Ahead to 2024-2025

We had a great year together last year and are already looking forward to another fantastic year to come! Students will continue to learn new math concepts. The Rewards reading program will be used with a focus on social studies to learn new vocabulary. Students in Mrs. Jensen's room will learn about the Solar System in science and begin learning about People and Places in the World in social studies.

High School Students will begin their language arts unit based on the theme of self with a culminating project of creating a personal zine. Students enrolled in Prairie Rose ITV will complete their courses by the end of January 2025. We can't wait to see what the students are capable of!
