

# ROCK LAKE SEPTEMBER NEWS

## Classroom news:

In Social Studies the high school students have been learning about the Charter of Rights, levels of government and the principles of democracy. In ELA, we are learning about how communities function and how they are valuable to us. Science class is about plant and animal cells. In math, we are learning about rational numbers in decimal form, wholesale prices, retail prices and types of taxes.

The middle years students are learning about place value, fractions and percentage in math. In Science they have been learning about biodiversity of living things and in social studies they have been learning about the geography of the Canadian provinces.

In early years, the students are learning to skip count and how to use addition strategies. In science they are learning about plants and in social studies they are working on labeling maps of Canada, the continents and the oceans. The Kindergartens have been busy learning classroom rules, practicing printing their names and the letter A.
