

ROCK LAKE NOVEMBER NEWS

Our school was treated to a visit and safety presentation from the Woodlands Fire Department.

Classroom news:

- The kindergarten class are enjoying reading books such as *Going on a Bear Hunt* and *The Three Little Pigs* and acting out the stories. They had fun creating maps and bear masks for their bear hunt.

- The Early Years class has been working with odd and even numbers in math. We wrote Christmas acrostic poems and short stories about the nativity story. We have started practicing our lines and we are getting very excited for the concert.
- The Middle Years class have been learning about the provinces and territories of Canada. They have just begun a project to build 3D maps to represent each province and territory.
- The high schoolers are busy with a project of creating their own countries. They have talked about government, taxes, economy, etc. and need to take all of those into consideration with their planning.

From the Guidance Counsellor:

November's Guidance lessons continued with the theme of friendship. The *Berenstain Bears* helped to demonstrate how conflicts between friends arise sometimes, and that we need to compromise and cooperate to preserve relationships with our friends. We were reminded to speak kindly and to think before we say something because words have power and can hurt someone deeply. We completed this lesson with making "bookmark buddies."

Dates to Remember:
Christmas Concert- Dec. 17
Last day- Dec. 20
