

January

As we wrap up the first term of the school year, I would like to take a moment to express my appreciation for the hard work and dedication of our students, staff, and families. December is always a special time, filled with festive activities and a sense of community.

A heartfelt thank you to everyone who made our Christmas Concert a memorable success! We are so proud of all our talented students who performed with enthusiasm and dedication, spreading holiday cheer through their singing and performances.

I would also like to thank the families and friends who attended, supporting our students and making this event so special. Your presence helped create an atmosphere of warmth and community that made the concert unforgettable.

As we approach the winter break, I encourage everyone to reflect on the accomplishments so far and recharge for the exciting opportunities ahead in the new year. I wish you all a joyful and restful holiday season!

- Mrs. Farnworth

In the month of December all the students worked pretty hard to wrap things up before Christmas.

In math the grade sevens and eights mostly worked on algebra, mental math and problem solving, and making corrections on a few projects we had been working on. Mrs. Ladyka came and did a lesson with us on fractions, measuring, conversions, and expanding recipes.

In social studies we recently did a test on mapping. We are now completely finished the unit. We will start the next unit when we get back from Christmas break.

In art we focused on making props for the Christmas concert and making our family Christmas presents.

We also did a lot of practicing for the concert: singing the songs, memorizing our lines, and making everything perfect for you! On December 9th we set up the stage and had full practices until the concert. We all looked forward to December 17th!

We are all looking forward to the new bookmobile that will start operating around March.

We hope you all have a

Merry Christmas and a happy bright New Year!

- Middle Years students
