

BREAKING NEWS

EDITORS: AMY AND AUSTIN

MARCH 2025

MRS JENSEN'S ROOM

In science, Mrs. Jensen gave the kids a special field trip, to the Rock and Mineral show! They all finished their rock and mineral unit. The students all enjoyed learning about the quartz and amethyst minerals. Ben the tour guide let them all take home a special rock, as a souvenir. Special thanks to Mrs Jensen for taking them!

In ELA, the grade 6-8 kids get a new word work unit every week, it teaches them different vowel blends. Austin really enjoys doing the vowel blending work:), and doesn't grumble at all They are also studying a book called "A Long Walk to Water", it ties into the world geography we are studying, and it connects to learning about the quality of life.

The UFLI kids continue learning to write and read words with specific sounds and through playing games! In math, the kids have been learning about linear equations and circle geometry, while others are learning about input-output charts, patterns, and data graphing.

On pi day all students got to do some fun activities, the younger students got to make bracelets and other cool stuff. The high schoolers got to go on a scavenger hunt where we ran around the colony trying to find items to measure. Then we all gathered together in the afternoon to enjoy a piece of pie! BIG thanks to all the Mom's who worked so hard to make the pies:)

UPCOMING EVENTS:

- Swimming lessons will start on April 11th from 12:00- 2:00 p.m.
- We are proud to announce that the bookmobile is back in Stonewall having the final touches put on it! Austin is very excited to use the bookmobile again next September. Bins will continue being delivered until then. Next delivery is April 8th.

BIRTHDAY EDITION

Cassidy- April 24th
(BIG 15!)

NOELLA'S ROOM

In the realm of ELA, the diligent students have been toiling with fervor on their literary explorations, paving the way toward their grand final projects. The air is thick with excitement! Our hearts can hardly contain it. A resounding round of applause to Sophie, Cierra, Raina, Lorna, and Destiny for triumphantly completing their math endeavours; we are all immensely proud of their achievements! 🙌
