

Omega School Loves Art!!

With the colder winter months, and no access to a gym, Omega students get creative and love creating a variety of Art.

Recently, our Early Year's students have focused on creating Tissue Paper Box "monsters" using recycled or scrap materials we have saved from previous projects. These characters all took on a life of their own!

For Valentine's Day this year, a fresh bouquet of flowers was just what the Doctor ordered to bring love to their family and friends!

Lastly, our Early Years are getting ready for a trip of a lifetime, as we pack our bags, grab our tickets and passports as we Explore the World all the way to Australia!

Our Middle Year's students have been able to incorporate some Math into their Art this year as well. Using MS Logo, they were able to create some magnificent snowmen!

Art also took on a winter scene for them, as they created their own snowflakes, using wax crayons and paint to create the whimsical look of winter.

Lastly, as a school, we are all ready to Step into Spring, and our flower wall buds are already starting to bloom. We cannot wait to see how are flowers grow and sprout this Spring season.
