

Omega June Newsletter

Mrs. Evenson's News

It feels like yesterday was my first day at Omega School, and now the year is almost over. Next year, I will be headed off to Sturgeon Creek Colony to take on the role of Gr 5-9 Teaching Principal there. I have loved every minute working with the students at Omega School and will miss them all greatly. I know that you'll be as welcoming to our new Teaching Principal as you were to me!

To finish June off strong, we have several events for our students. On **June 17th** starting at 1:30pm we will host our Portfolio Celebration Afternoon. Students will display some projects that they have worked on in the last few months. Next, on **June 23rd** will be our Field Trip Day! We will be heading with students to the Canadian Mint, Bird's Hill Park and ending the day with ice cream at Half Moon! A parent sign-up sheet will be up in the kitchen first week of June. Lastly, on **June 25th** starting at 1:30pm we will have our community picnic! Just like last year, start finding your teammates for an exciting competition amongst each other! 1st, 2nd and 3rd prizes will be given for teams.

Lastly, thank you to all of you for the most fantastic year for all of us! From students, to staff, to parents, your generosity, support and kindness have not gone unnoticed. I hope that you all have a wonderful summer, and I can't wait to hear about all the great things happening at Omega!

Mr. Khubbar's News

As we reach the end of this wonderful school year, thank you to students and families for your continued support and hard work.

In Math, Grade 4 students are exploring patterns and developing their understanding of pattern rules and relationships. Grade 6 students have been learning about angles, triangles, and polygons, and will soon begin studying probability. Grade 7 students have started working with mean, median, and mode and will continue strengthening their understanding of these statistical concepts. Grade 9 students will soon begin a unit on similarity and transformations.

In Social Studies, students are currently learning about the Middle Ages and exploring life, society, and important events from this historical period.

In ELA, the Grade 4, 6, and 7 students have been focusing on opinion writing, learning how to clearly express their ideas and support them with strong reasons and examples. Grade 9 students are continuing their work on the unit *Journey of Discovery and Survival*, which includes a poetry section where they explore themes of personal growth, resilience, and change.

Wishing everyone a safe and enjoyable summer!

Mrs. Khubbar

From the Guidance Counsellor

All year in guidance we have been learning about how we can help our world and make a difference in the lives of others. The students coloured placemats to be used at Siloam Mission's Thanksgiving meal, made cards with special Christmas greetings for the Stonewall Christmas Cheer Board, and reflected on how important it is to have a safe, secure home through the Habitat for Humanity's Meaning of Home writing project.

For our final guidance project this year, we've been focusing on sustainability, the importance of the environment, and how we can all help to keep our earth healthy for years to come. We've learned about how essential water is and ways we can help to preserve clean water. We've also studied how trees are a resource that we cannot live without. Although we need to use resources from the earth to live, it's important to think about how our actions affect the environment and look for ways to reduce our impact.

We have had a great year learning about how we can help others, be grateful for our blessings, and about the importance of taking care of our environment. We look forward to more guidance lessons next year. Have a great summer everyone!
